OUR UNIQUE 100%, NON-PRORATED GUARANTEE:

Other tank lining companies, contractors and new tank installers offer only diminishing warranties. Over time, the value of their warranty diminishes while ours does not (please refer to graph).

For example: On a 5 or 10-year-guarantee, here is how our guarantee compares to a warranty.

Years after lining	CHICAGO TANK LINING	OTHERS
2	100%	90%
3	100%	80%
4	100%	70%
5	100%	60%
6	100%	50%
7	100%	40%
8	100%	30%
9	100%	20%
10	100%	10%

With warranties, you pay for that percentage of service already used. With our guarantee, should our coatings require repair, there is no repair charge.

We can afford to offer this unique, powerful guarantee because of our confidence in our experience, unparalleled quality of workmanship and use of superior materials.

So when you compare us to our competitors, please consider the added value, total satisfaction and long-term savings only Chicago Tank Lining can provide.
